Introduction to Database Systems - Course Introduction

ABOUT THE COURSE :

Databases are the backbone of almost all the digital services and e-governance solutions. Modern businesses and financial systems heavily depend on databases systems and transaction processing for their successful operation. This course introduces the students to the various theoretical and practical principles involved in the design and use of databases systems with the help of database management systems (DBMS) and the SQL Standard

INTENDED AUDIENCE : Any Interested Learners

PREREQUISITES : Studying B Tech (computer science) 3rd year, Discrete Mathematics and Data Structures
